

COMPANY PROFILE

YEARS OF ACTIVITY

Since 1995, Fazzini manufactures and distributes medical equipment, essential for the activity of health facilities, in the private and public sectors.

Below you can see our headquarters over the course of time: our first emplacement since 1995, made up exclusively of offices.

In 1998 we moved into a building within a large industrial area consisting of offices and a large warehouse.

In 2018, in the same industrial area, we moved to our current headquarters, in a new building with adjacent wide warehouses.

COMPANY STRUCTURE

TOYOTA TSUSHO

Toyota Tsusho is a member of the Toyota Group, which comprises 17 companies. It takes care of business transactions related to various items in Japan and between foreign countries with 7 operating divisions. It is one of the largest trading companies in Japan, has a worldwide presence through its many subsidiaries and operating divisions.

CFAO

is a multinational company engaged in the sale of industrial products, in particular automobiles and pharmaceuticals, in partnership with strong brands. It operates in 4 business areas: Mobility, Healthcare, Consumer and Infrastructure with 7 divisions. Active in Africa, in the former French colonies and in overseas territories. Founded in 1887 since 2012 it is part of the Toyota Tsusho group.

CFAO HEALTHCARE

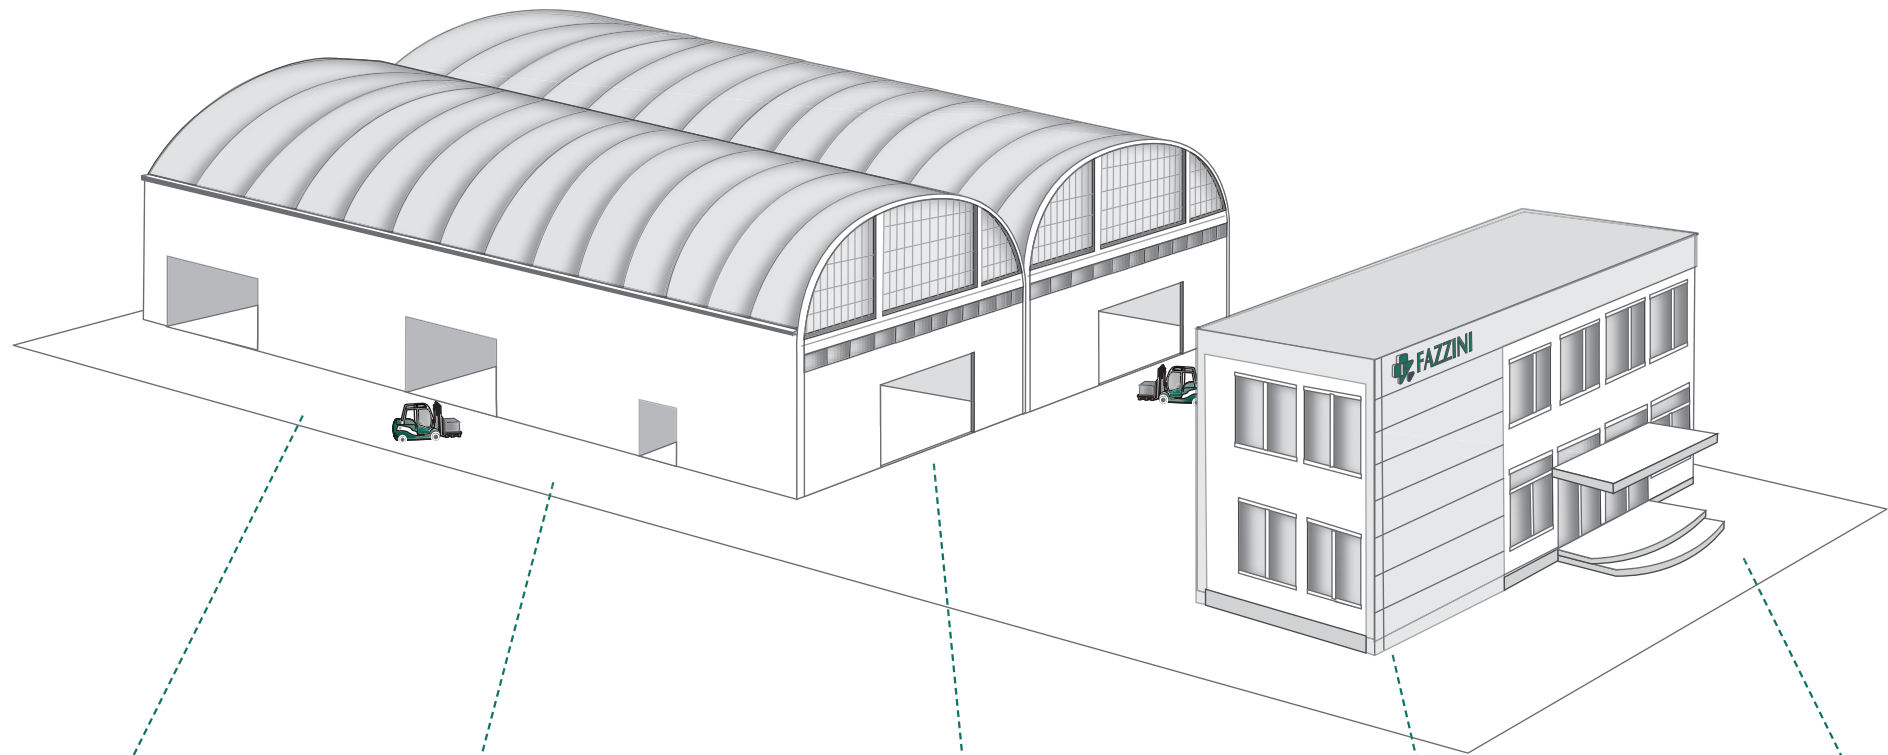

Since the creation of its first company in 1949 in Dakar (Senegal), CFAO Healthcare (formerly Eurapharma) has established a large network of companies in Africa, Madagascar and in the French Overseas Territories. The company has more than 70 years' experience in managing pharmaceuticals, medical equipment and logistics. The distribution network offers the full range of products needed to supply retail pharmacies and clinics.

FAZZINI

Since 1995 Fazzini has been manufacturing and distributing hospital equipment and medical devices, the company has grown over the years and offers more than 4000 products. During the years Fazzini has become a leading supplier for health facilities in private and public sector.

LOCAL PRESENCE

BASED ON A STRONG LOCAL PRESENCE
Active on Italian domestic market and internationally in 100 countries with direct active customers and accredited local partners.

TURN-KEY SOLUTION

We tailor our offer to customers needs. Fazzini has created a comprehensive range of solutions to integrate the complexity and the diversity of customers demands both in Private and Public Sector besides the Institutional Organizations.

ALWAYS IMPROVING

We constantly work to offer the best-value-for-money products to allow our customers and the end users to access quality products at a reasonable cost.

FLEXIBILITY

In the medical sector, what matters the most is the response time to customer requests. Very often they are made to deal with large-scale health crises and our team, with great flexibility, is able to respond in a short time.

QUALITY DEPARTMENT

RESEARCH

Our Research is constantly dedicated to improve the equipment to facilitate functionality and operational duration.

DEVELOPMENT

We look for new products according to the latest market needs and the new demands of customers. The pandemic crisis has changed the products breadth in our catalog expanding the range.

TESTING

Tests, on new and on stock products, are carried out meticulously in order to report any possible alteration

QUALITY

We are certified
ISO 9001:2015
ISO 13485:2016
Soon we will also be certified
ISO 14001

LOGISTIC DEPARTMENT

LOGISTIC DEPARTMENT

Is always ready to face new challenges. We take care of the preparation of the product using eco-friendly materials and for each shipment we choose the most suitable courier.

We made our shipments by land, air or sea all over the world using our trusted carriers

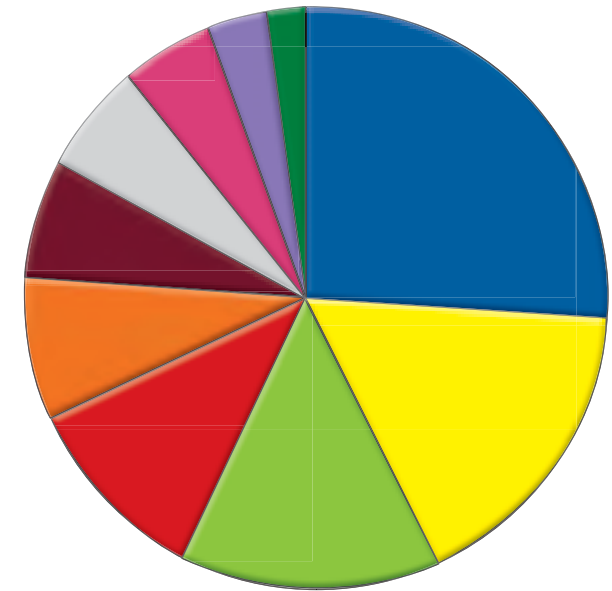

PACKAGING

Along with paper packaging we use air cushion packaging which with its variable volume allows us to fill any empty space.
